

DATAMASTER®

Compression Connectors

High performance BNC, RCA, PAL and F-Type Compression Connectors for trouble free, water-proof professional connections. Color-coded bands provide instant identification for different cable types. The one-piece design suits either solid copper or copper-clad-steel coaxial cables.

Our T0063 coaxial cable stripper has three blades to ensure accurate stripping lengths of each cable section. The preset stripping length of 12mm (8mm + 4mm) correctly strips the cable for our compression connectors. Built-in hex screws provide accurate depth-of-cut adjustment.

Our T0040 precision hand crimping tool employs a ratchet action to ensure that correct crimping pressure is applied for reliable, trouble-free compression. Adjustable compression depth to suit the different types of connectors. A threaded adaptor is supplied to suit F-type connectors

MALE COMPRESSION CONNECTORS

CAT #	TYPE	CABLE
P0722RED	F-type	RG59
P0722YEL	F-type	RG6 Dual-shield
P0722BLU	F-type	RG6 Quad-shield
P0724RED	BNC	RG59
P0724YEL	BNC	RG6 Dual-shield
P0724BLU	BNC	RG6 Quad-shield
P0726RED	RCA	RG59
