Datamaster® Cat5E UTP Patch Cords

- Made from 100% oxygen-free copper
- 4 twisted pairs (multi-stranded) T568A colour code
- RJ45-RJ45 connectors with snagless boots
- Injection-moulded connectors ensure the highest quality and outstanding strain relief
- Supplied in Datamaster® poly hangsell bags
- Custom-made cables - lengths, colours and printing - are also available

Datamaster® Cat6a ArmourCord® Slim U/FTP Patch Cable

- Designed for highly susceptible environments
- Suitable for Manufacturing Facilities, Educational Facilities, Agricultural Sites, Hospitality, Roads and Infrastructure, Transport and Logistics, heavy access areas
- Withstands tough conditions: weather impact, traffic, pests, force, movement
- Armoured design feature increases cable longevity
- Material: SUS 304 (18/8) commercial grade stainless steel
- Protects against compression, external interference, corrosion
- Provides superior tensile resistance against damage
- U/FTP 32AWG with Slim 4.7mm OD for space-saving and flexibility
- Fluke DSX-8000 Channel Tested
- Length: 0.25m - 2m
- Colour: Natural stainless steel colour

SELECTING QUALITY CABLE

Selecting quality cable is always the best option

With the variants available in the ethernet cable market, sometimes it's difficult to know what quality cable is and why it's the better option. Datamaster® ethernet cable is quality and we don't believe in lowering our quality to be the cheapest in the market. We do believe in being competitively priced. We've compiled a guide to what to look for when purchasing ethernet cable and why Datamaster® is the quality choice.

1. Datamaster® is made from 100% pure, oxygen-free copper

• Anything less than 100% copper is illegal, including copper clad steel

• 'Pure' and 'oxygen-free' are terms that refer to the copper not being recycled and reused

• Anything less than 100% pure, oxygen free copper will give intermittent signal and performance

• Datamaster® complies with Australian requirements for customer cabling products RCM

• Datamaster® is also RoHS compliant (EU Restriction of Hazardous Substances) and verified to exceed ISO/IEC11801 standards (International I.T. requirements)

2. Datamaster® is manufactured to exceed the data performance standards

Exceeding the standard:

• Allows for fluctuations in environmental (site) factors including installation and interference issues

• Just meeting the standards will falter post installation. If a cable just meets the standard in a controlled lab environment, it's downhill from there

• All Datamaster® Ethernet cable is FLUKE® tested, verified performance

Limited
LIFETIME *

PERFORMANCE GUARANTEED
★★★★★

3. Datamaster® guarantees the performance standards are exceeded and offer a limited lifetime warranty

• Datamaster® performance standards are verified, which is why we can guarantee the performance.

*WARRANTY
Warranty begins from purchase date of the item (invoice date). For warranty/service issues, please contact your place of purchase. Please hold on to your original receipt. The warranty covers any production and material defects of bona fide purchased product. The following is NOT COVERED by the warranty: Accidents, misuse, poor maintenance, electrical overloads such as lightening or voltage. Must be installed by a qualified installer, no DIY. No abuse. Incorrect installation of product. Tampered outer casing. Transportation costs for service call. Replacement item cannot exceed the cost of the item under warranty. The supplier is responsible for only repair or replacement.

Y8400 Range - Cat5E Solid Conductor UTP Cable

Now available in Reel In Box, quality Cat5e Solid conductor cable using 100% bare copper. 4 twisted pairs 24AWG with 7/0.02mm2 solid copper conductors. Capable of supporting up to 100Mbps at 100MHz and reduces the amount of crosstalk, resulting in a greater overall transmission speed. Available in blue, with count down metre marking. Custom branding and colour also available.

CAT #	COLOUR	LENGTH	PACKAGING
Y8400BLURIB	Blue	305 Metre	Reel-in-box
Y8100 Range - Cat5E Stranded Conductor UTP Cable

Our quality Cat-5e stranded conductor cable is suitable for assembly of patch cords. 4 twisted pairs 24AWG with 7/0.20mm² stranded conductors. Available on 100 and 305 metre reels or in durable 305 metre 5-ply pull-boxes. Count-down metre-marking.

Datamaster® High Grade Transparent Speaker Cable Range

Quality extra heavy duty figure-8 speaker cable with transparent PVC jacket. All cables have a white trace-line on one conductor provides easy identification to avoid polarity-reversals during installation. Supplied on 100 metre, strong polypropylene reels with count-down metre-marking.

RG6 / U Quad-shield Coaxial Cable

RG6/U quad-shield 75 ohm coaxial cable for digital TV, CATV, SATV and CCTV/security camera applications. Low-loss for use on long runs. Aluminium braid and foil shields. Gas-injected (foamed) PE dielectric. Copper-clad steel conductor for tensile strength and reliable connection to F-Type connectors. Black jacket with count-down metre-marking. Available on 100 and 500 metre reels or 305 metre reel-in-a-box.

Two Paired Screened Data Cable

The individual shielded twisted pairs are great for many applications. The cable offers protection against electrical magnetic interference with the use of aluminium-polyester shielding. Widely used for Industrial automation, aerospace, communication, automotive. PVC outer jacket material.
