DATAMASTER

24 Angled Keystone Patch Panel
## P4024ANG

▦▰ FEATURES

19" inch 24 Unloaded Port Angled Keystone Patch Panel with Cable Management

Configure the unloaded patch panel with Access Keystone Jacks or Couplers for Cat5e, Cat6 or Cat6A.
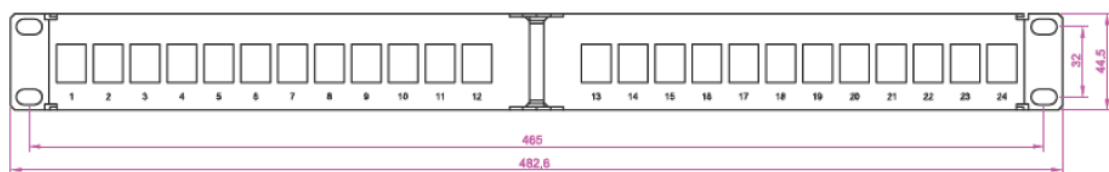

The angled design provides an efficient solution for network server racks and cabinets allowing an easier route for cables into a vertical cable manager.

- Angled Feature reduces cable bend radius' with horizontal routing
- V-Type snap in centre of the panel
- Open-Angle creates immediate connectiion access to the rear from the front of the patch bay
- Compatible for Cat5e, Cat6 and Cat6A
